COPYING OF THIS BOOK BY EDUCATIONAL INSTITUTIONS

A purchasing educational institution may only photocopy pages within this book in accordance with the Australian Copyright Act 1968 (the Act) and provided the educational institution (or body that administers it) has given a remuneration notice to the Copyright Agency Limited (CAL) under the Act.

Acknowledgements

Intelligent Australia Productions thanks Wikipedia for information and facts verification. We are grateful too to the individuals and bodies who either granted permission for use of graphics or whose images have been placed in the public domain.

Notice: If you believe in good faith that materials used by us infringe your copyright, you (or your agent) may send us a written notice that includes the following information:

- A clear identification of the copyrighted work you claim was infringed.
- A clear identification of the material you claim is infringing the copyrighted work, and information that will allow us to locate that material, such as a link to the text or graphic.
- Your contact information so that we can reply to you, preferably including an email address and telephone number.
- A statement that you have a "good faith belief that the material that is claimed as copyright infringement is not authorized by the copyright owner, its agent, or the law."
- A statement that "the information in the notification is accurate, and under penalty of perjury, the complaining party is authorized to act on behalf of the owner of an exclusive right that is allegedly infringed."

The notice must be signed by the person authorized to act on behalf of the owner of an exclusive right that is allegedly infringed.

Notices should be sent to our address at the top of this page. We will review and address all notices that comply with the requirements above. We suggest that you consult your legal advisor before filing a notice or counter-notice. Also, be aware that you may be liable for damages if you make a false claim of copyright infringement.

Teachers Notes

Our belief and philosophy at Intelligent Australia has always been that

KNOWLEDGE leads to **UNDERSTANDING** which leads to **WISDOM**

And what better way to bring knowledge to young learners than through the fun of solving crosswords puzzles.

The puzzles in this book have been especially created to broaden students' general knowledge by undertaking research.

Not all questions will call on the student's investigative techniques but a healthy percentage of them will.

The following sources will prove very helpful in solving the clues

INTERNET, REFERENCE BOOKS, ATLAS, DICTIONARY, THESAURUS

Each puzzle ...

- *is a 100% educational activity* ✓
- *provides an educational challenge* ✓
- *demands correct spelling* ✓
- *helps build vocabulary* ✓
- *enriches general knowledge* ✓
- *gives satisfaction and a sense of accomplishment when solved* ✓
- *offers an opportunity for family members to work together* ✓

Teachers may be assured that the puzzles here are appropriate for use by mainstream students. While challenging even the most capable pupils they are suitable too for those who may require a degree of assistance from a teacher (school) or parent (home).

There is no one correct way to make use of this book.

Some teachers may choose to spread the 20 puzzles over a year, allowing two weeks for completion of each. Others may condense them into a semester (one per week).

Crosswords may be presented either as school-based or home-based tasks, or perhaps they could be begun in class and completed at home.

It is suggested that each of the two-page puzzles be kept together in one place... perhaps pasted in an activity or homework book.

Children love incentives. Consider having a class General Knowledge Champion, being the student whose puzzle is the neatest and best each week.

In searching for solutions, students will usually find more information than they actually require. There is space underneath each crossword for them to write about something interesting they learnt (being something other than a clue's solution) and this could be shared with the rest of the class.

Over 1 000 Gems of General Knowledge!

How many do you know?

General Knowledge Research Crossword No. 1

- Across -

1. The most common gas in the atmosphere.
